#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 21-23 and 27-28 are objected to because of the following informalities:
2. Claim 21 depends upon claim 19, however the “connector” was introduced in claim 20, therefore the examiner has assumed claim 21 to depend upon claim 20.
3. Claim 27 depends upon claim 19, however the first and second frames are introduced in claim 25, therefore the examiner has assumed claim 27 to depend upon claim 25. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. Claims 1-24 and 25-33 are rejected under 35 U.S.C. 102(e) as being anticipated by Mizuno (US 2006/0102398 A1).
6. Mizuno discloses a vehicle comprising a fuel 30, power storing device 40, fuel supply or hydrogen tanks 18, load or motors 16, PCU 50, all position along the longitudinal axis, high voltage wiring 56, 57, fuel lines 19, connectors 18a, wherein said fuel lines are on a first lateral frame 21 and said wiring is along a second lateral frame

Art Unit: 3618

22, both fuel lines and wiring being between third and fourth frames 23, 24, as shown in figures 1-4.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claim 25 is rejected under 35 U.S.C. 103(a) as being unpatentable over Mizuno, as applied to claim 19 above.

Mizuno does not disclose a T-shaped case for the PCU. The shape of the PCU case is not patentable unless it produces an unexpected result and therefore it would have been obvious to one having ordinary skill in the art at the time of the invention to have shaped the PCU case of Mizuno like a "T" or any other shape in order to arrange the case in tight spaces and form fit with other components.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey J. Restifo whose telephone number is (571) 272-6697. The examiner can normally be reached on M-F 10-7.
